The Franklin Public Schools' Portrait of a Graduate represents the community's consensus of five essential skills each student practices and develops, individually and collaboratively through teamwork, throughout all grades in Franklin Public Schools. Understanding that the development of these skills is a lifelong process, FPS looks to provide a foundation for graduates' future learning, growth, fulfillment, and success. These skills are: Confident and Self-Aware Individual, Empathetic and Productive Citizen, Curious and Creative Thinker, Effective Communicator and Collaborator, and Reflective and Innovative Problem-solver.

ACCREDITATION

Franklin High School is accredited by the New England Association of Schools and Colleges (NEASC), a non-governmental, nationally recognized organization whose affiliated institutions include elementary schools through collegiate institutions offering post-graduate instruction. Accreditation of an institution by the New England Association indicates that it meets or exceeds criteria for the assessment of instructional quality periodically applied through a peer group review process. An accredited school or college is one that has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future.

SELECTING COURSES

Franklin High School is a comprehensive high school. Many courses are sequenced and may have prerequisites. Within these guidelines, courses are open to all students. Schedules are refined to accommodate student needs as much as possible. Curricular offerings are reviewed annually. A complete description of courses may be found in the [Course Descriptions](#) section of this document, which can also be found on the [Franklin High School website](#). During late January and the month of February, students will work with their guidance counselor to select courses. Teacher recommendations, grades to date, and future post-secondary/vocational goals will be considered.

GUIDANCE DEPARTMENT

Guidance counselors communicate to students the opportunities that are available for academic as well as personal growth. Guidance counselors provide assistance to develop a meaningful high school program, explore interests and abilities, as well as develop educational and career plans. Students are encouraged to use the services available through the Guidance office.

The Guidance Department provides services in the following areas:

- **Course Selection:** Students have the primary role in determining the scope and breadth of their education. Students are expected to discuss their course selections with families and teachers. In making their course selections, students will also consult with their guidance counselors. Counselors will help students assess their strengths, weaknesses, and goals, and will explain course options to students. With the help of families, teachers, and counselors, students are responsible for their course selections.
- **Information:** Grade-level seminars, conferences, reference material about careers, colleges, and job training opportunities.
- **Placement:** Counselors assist students in making the transition from middle school to high school, from high school to higher education, and/or from high school to career.
- **Evaluation:** Counselors provide a thorough review of each student's areas of strength and challenges as shown by test results, academic activities record, teacher observations, and student reflection.

COURSE SELECTION GUIDELINES

The best course of study for an individual student is one that is within reach, yet stretches the student's abilities to the fullest, satisfies the student's needs and interests, and meets the objectives of a long-range educational or vocational plan. Families are encouraged to review the courses their student selects each year. Every attempt will be made to satisfy student requests for courses. However, budgetary constraints, staffing, availability, course enrollment, building capacity, and master schedule flexibility are factors in the scheduling process and may necessitate alterations to student schedules. Please be aware that some courses listed may not run due to the aforementioned variables.

Advanced Placement (AP)

Advanced Placement (AP) courses are formally recognized by the College Board and provide opportunities for students to earn advanced placement and/or credit at college.

The Advanced Placement (AP) program, which is administered by the College Board, consists of college-level courses and exams for high school students. AP exams are scored on a range from 1 to 5. Scores of 3 or higher often qualify the student for college credit or advanced courses. Since its inception in 1955, the AP Program has been remarkably successful, and many students have earned college credit or placement in advanced courses. The AP Program at Franklin High School has included the following courses: English Language and Composition, English Literature and Composition, Spanish Language and Culture, French Language and Culture, Latin, Biology, Chemistry, Physics, Environmental Science, Precalculus, Calculus, Statistics, Computer Science, U.S. History, European History, Economics, Psychology, Government and Politics, Studio Art, and Music Theory. AP course offerings are subject to change due to factors such as enrollment or budgetary restrictions. All students who elect an Advanced Placement course are required to take the AP exam or a teacher-developed final exam of equal rigor in May, regardless of their final grade in the course. AP offerings are subject to change based on student enrollment and the availability of faculty/staff. The cost to take the AP exam is approximately \$100. Examination fees are reduced for students who qualify for free and reduced lunch for classes in which students are currently enrolled.

(Continued)

Honors (H)

Honors courses offer more highly challenging content than the typical college preparatory course. Honors courses are quite rigorous and require consistent, independent effort for students to achieve at the highest level. Students in Honors courses develop advanced content and skills as articulated by the Massachusetts Curriculum Frameworks.

Open Honors (OH)

Open Honors courses are grouped heterogeneously regarding course level and afford students the choice of taking such courses for CP or Honors credit. Students enter into a contract at the beginning of the course, committing to complete the content/skills as articulated by the Massachusetts Curriculum Frameworks for the respective weighted course credit.

College Preparatory (CP)

College Preparatory (CP) courses are designed to prepare students for success in college-level coursework. CP courses are rigorous and require consistent effort for students to achieve at the highest level. Students in CP courses develop a strong foundation of content and skills as articulated by the Massachusetts Frameworks.

FHS Recommendations for Course Levels

- Highly Recommended final grade of “B-” from previous Honors level course and/or teacher recommendation to remain in Honors
- Highly Recommended final grade of “A-” to move from a College Prep course to an Honors course and/or teacher recommendation
- Highly Recommended final grade of “A” (College Prep) or “B” (Honors) to enroll in an Advanced Placement course and/or teacher recommendation.

POLICY ON ADDING AND DROPPING COURSES

Students are expected to select courses carefully. The master schedule at the high school is determined by students' course requests in the spring. Therefore, once the student has made their initial course selections, students should not consider requesting changes unless there are extenuating circumstances. Permission to drop a course or change a course level will be considered after receiving input from faculty and evaluating available space in alternate courses. Due to the complexity of the schedule and to preserve the integrity of our course offerings, the following actions will be enforced when requesting a course change:

- **Elective changes:** Once the school year has started, there will be no changes made to first semester or full year elective choices. Similarly, no elective changes for second semester will be made once second semester has started.
- **AP Courses:** Students will not be allowed to add an AP course once the school year begins. Dropping an AP course once the school year begins will require administrative approval.
- **Course level changes:** No course-level changes will occur during the 1st cycle (seven school days) of the school year. After the first cycle, level changes (Honors to CP or CP to Honors in the same course) will be considered on a space available basis AND in consultation with parent/guardian, along with administration prior to October 1st. Any requests for changes after this time require administrative approval. Due to scheduling constraints, some changes to a student's schedule may not take place until the second semester begins.
- If a course level change is approved, the cumulative grade and attendance records from the initial course will transfer to the new course without adjustment.
- Any student who has an approved level change will independently be responsible for prior content covered in the new course.
- Any level change made after a term grade has been posted will be recorded on the student's transcript as a W (withdrawn).
- **Credits** are earned based on the final grade in a course. Partial credit is not granted for any course. Therefore, if a course is dropped prior to earning a final grade, no credit will be earned.

Special Note to All Students and Families:

Every attempt will be made to satisfy student requests for courses. However, budgetary constraints, staffing, availability, course enrollment, building capacity, and master schedule flexibility are factors in the scheduling process and may necessitate alterations to student schedules. Please be aware that some courses listed in the Program of Studies may not run due to the aforementioned variables.

CURRICULUM NOTICE AND OPT OUT

Consistent with Massachusetts regulations, 603 CMR 26.05(1), the Franklin Public Schools, through its curricula and materials, encourages respect for the human and civil rights of all individuals, regardless of race, color, sex, gender identity, religion, national origin or sexual orientation. In accordance with district guidelines, families may request information from the building principal on available accommodations related to curriculum content.

ALTERNATIVE EDUCATION

The Bridge Program - Aligned with Franklin High School's Portrait of a Graduate, the goal of the Bridge Program for alternative education is to cultivate each student's intellectual, social, emotional, and physical potential. Here, students will engage in differentiated opportunities in a small community of learners where they will engage in core academics, group processes, and community work experiences. We maintain a low student-to-staff ratio and provide additional support services to ensure a safe, nurturing, and respectful environment. Our commitment to our students provides them with opportunities to experience both social and academic successes and emphasizes character building to enable them to become productive citizens.

INNOVATION CAREER PATHWAYS

Innovation Career Pathways (ICP) are designed to provide students with structured coursework and real-world learning experiences in high-demand industries across Massachusetts. These pathways help students explore career interests, develop essential skills, and engage in authentic learning opportunities that connect academic content to the workplace.

ICP coursework includes four classes in an area of concentration and is developed in partnership with employers, higher education institutions, and community organizations to ensure alignment with workforce needs and postsecondary expectations.

Franklin High School offers two state-approved pathways: Business and Finance and Health and Social Assistance. Both pathways culminate in a 100-hour internship or capstone project, allowing students to apply their knowledge and skills in professional or community settings. [Click here](#) for more information.

SPECIAL EDUCATION DEPARTMENT

The Special Education Department of Franklin High School offers participating students a curriculum based on each student's specific needs as stated in his/her Individualized Education Plan (IEP). Entrance into this special education is in accordance with Chapter 766, Massachusetts Special Education Regulations, which requires referred students to be evaluated through a team process. As a result of a Team Evaluation, an individualized educational plan is developed and implemented, which may provide one or more of the following services or course offerings: academic support, remedial academic subjects, inclusion subjects, speech and language therapy, counseling services, and/or other specialized services deemed appropriate by the team to accommodate the unique learning style of each participating student. A full range of special education services is available to identify students who need support in order to be successful in regular education classes. Services are designed to reinforce the general education curriculum and enhance basic academic skills.

GRADUATION REQUIREMENTS, CREDITS & GRADE POINT AVERAGE

GRADUATION REQUIREMENTS

The Franklin School Committee approved the following graduation requirements.

Applicable to all students:

- All graduation credits must be earned in grades 9-12.
 - Minimum accumulated credits required to be promoted each year (Class of 2027 and beyond):
Freshman - 22 credits; Sophomore - 51.5 credits; Junior - 81.5 credits; Senior - 111.5 credits to graduate

- Students in the classes of 2027 and beyond must earn 111.5 total credits and fulfill minimum course distribution requirements.
- Only courses that are completed will earn credit. Partial credit will not be given for courses that are not completed.
- Determination and acceptance of transfer credits are at the discretion of the principal. Transfer credits must have been earned at accredited schools. Course descriptions and curriculum are reviewed for reciprocity. Term grades will be a combination of the incoming grade and the grades earned at Franklin High School for a particular course, determined based on the time of transfer.
- Credit is earned only for courses completed while in attendance at Franklin High School. The Principal or designee will determine if credit will be awarded to students who are tutored outside of the regular school day or participate in other learning opportunities.
- Approved Independent Study courses will take the place of a Directed Study in students' schedules. Students cannot be scheduled for both a directed study and an Independent Study at the same time.

COMPETENCY DETERMINATION

In addition to local graduation requirements, the Franklin School Committee approved the following competency determination requirements for Massachusetts:

One of the requirements for graduation in Massachusetts is a determination of competency in subjects previously covered by the MCAS. To earn the Competency Determination (CD), a student must meet two criteria: satisfactorily complete coursework and show mastery in accordance with the Franklin Public Schools grading policy.

A student satisfactorily completes coursework by earning a passing grade in a specific course in accordance with Franklin High School's grading policy.

A student shows mastery of a course by successfully completing relevant coursework certified by the Franklin Public Schools as reflecting the skills, competencies, and knowledge outlined in the Massachusetts academic standards and curriculum frameworks and meeting district grading standards for proficiency by earning a minimum of 60%. In doing so, the student must earn full credit for the specified courses as outlined below.

To meet the Franklin Public Schools competency determination required for graduation, students must satisfy at least one option in each of the following academic areas.

In English Language Arts, students must satisfy at least one of the following:

- (i) satisfactorily complete coursework and earn full credit for the equivalent of two years of high school English language arts courses,
- (ii) satisfactorily complete alternative courses as determined by the district that include English 9 and English 10 concepts and standards.

In Mathematics, students must satisfy at least one of the following:

- (i) satisfactorily complete coursework and earn full credit for the equivalent of one year of both high school Algebra I and Geometry;
 - (ii) satisfactorily complete coursework and earn full credit for the equivalent of two years of alternative coursework as determined by the District that includes the Algebra 1 and Geometry concepts and standards.
- In some cases, high school Algebra I and/or Geometry may have been taken in middle school.

In Science, students must satisfy at least one of the following:

- (i) satisfactorily complete coursework and earn full credit for the equivalent of one year of high school Biology;
- (ii) satisfactorily complete coursework and earn full credit in the equivalent of one year of high school Physics;
- (iii) satisfactorily complete coursework and earn full credit in the equivalent of one year of high school Chemistry;
- (iv) satisfactorily complete coursework and earn full credit in the equivalent of one year of a high school Technology or Engineering course.

In US History, starting for the Class of 2027, students must satisfy at least one of the following:

- (i) satisfactorily complete coursework and earn full credit for the equivalent of one year of high school US History I;
- (ii) satisfactorily complete coursework and earn full credit for the equivalent of one year of high school US History II.

For students in the Classes 2003 through 2026, a student who has earned their Competency Determination (CD) prior to January 3, 2025 in the areas of Mathematics, ELA, and Science through a passing score on the MCAS subject tests or retests

and the satisfactory completion of relevant coursework will be considered to have met the competency determination requirement in the relevant subject(s).

For more information regarding Competency Determination, [click here](#).

<u>Class of 2027 Required Subjects</u>	<u>Minimum Credits Required</u>
English (Grade 9, Grade 10, Grade 11, Grade 12)	20.0
Mathematics (may include Computer Science A)	20.0
Science (Biology, 2 full years of additional sciences)	15.0
Social Studies (World History, US History 1 and US History 2)	15.0
World Language (2 years of a single language, unless approved waiver)	10.0
Art, Design, and Media	5.0
Wellness (Grade 9, Grade 10)	4.0
*Grade 9 & 10 PE requirement is met through Wellness 9 & 10	
Physical Education (Grades 11 & 12 - Choice of Pathway 1 or 2)	
Additional Credits	22.5
Total	111.5
<u>Class of 2028 and beyond Required Subjects</u>	<u>Minimum Credits Required</u>
English (Grade 9, Grade 10, Grade 11, Grade 12)	20.0

Mathematics (may include Computer Science A)	20.0
Science (Biology, 2 full years of additional sciences)	15.0
Social Studies (World History, US History 1 and US History 2)	15.0
World Language (2 years of a single language, unless approved waiver)	10.0
Art, Design and Media	5.0
Wellness (Grade 9, Grade 10)	4.0
*Grade 9 & 10 PE requirement is met through Wellness 9 & 10	
Physical Education (Grades 11 & 12 - Choice of Pathway 1 or 2)	
Personal Finance	2.5
Additional Credits	20.0

Total	111.5
--------------	--------------

*Physical Education requirements:

- Grades 11 & 12: Students must take a PE elective course for one semester within the two years (2.5 credits) or participate in a school-sanctioned sports team their junior or senior year (for at least one season).

Higher Education Admission Standards: Commonwealth of Massachusetts

The Massachusetts State Colleges and the University of Massachusetts campuses have adopted the following standards for admission.

Course Requirements

<u>Required Courses</u>	<u>Years</u>	<u>Including</u>
English	4	English 9, 10, 11, 12
World Language	2	Single language

Mathematics	4	Algebra I & II, Geometry and a math class in final year of high school
Sciences	3	3 years of laboratory science
Social Science	3	World History, US 1 and US 2
Electives	2	From subjects listed above or from Arts & Humanities

Grade point averages are calculated based on grades earned in college preparatory courses. Each state University of Massachusetts campus to which a student applies will calculate his/her GPA for purposes of applying the admissions standards. If an applicant's GPA falls below the required minimum GPA, a sliding scale will apply. Information on Undergraduate Admissions Standards for the Massachusetts State University System and The University of Massachusetts can be found [here](#).

Test Requirements: Standardized test policies vary by school. Please check individual school requirements.

Grade Point Requirements

A minimum grade point average (GPA) required in college preparatory courses for both state colleges and universities is 3.00 (weighted).

SEAL OF BILITERACY

The Massachusetts State Seal of Biliteracy is an award given to students who have attained a high level of proficiency in English through the ELA MCAS or ACCESS and another language through a district-selected standardized test. The qualifying student will demonstrate a high level of proficiency in all four domains of language (reading, writing, speaking and listening when all exist) of both languages. In Franklin, qualifying seniors will receive an official state seal beginning with the graduating class of 2021. This program is designed to both motivate and recognize students who have pursued and attained biliteracy during their

academic career in Franklin. This designation will be applied to Franklin High School transcripts for all qualifying students. For more information, [click here](#).

PHYSICAL EDUCATION REQUIREMENTS

Franklin High School recognizes that regular physical activity is important for all students. As such and consistent with Massachusetts General Laws, the school requires physical education for all students in grades 9-12.

Grade 9 and 10 students will meet this requirement through their scheduled Wellness course. Grade 11 and 12 students must take a school PE elective course for one semester (2.5 credits) either their junior or senior year, or participate in a school-sanctioned sports team during either their junior or senior year (for at least one season).

PATHWAY 1: Through participation in a school physical education elective for one semester in either their junior or senior year.

PATHWAY 2: Through participation on one of the school's athletic teams (SUBJECT TO ELIGIBILITY POLICIES AND COMPLETION OF THE SEASON) during either their junior or senior year.

HEALTH EDUCATION REQUIREMENT

Franklin High School requires students to pass Health Education through their Wellness courses in grades 9 and 10 as a requirement for graduation.

Health Curriculum Exemption

The Franklin Public Schools, in compliance with federal and state regulations, developed an age-appropriate comprehensive health education program, which is implemented in our secondary schools. The program strives to promote the health and wellness of the student population and to enable them to make informed, healthy decisions during their adolescent years.

As part of this comprehensive health program topics involving gender-inclusive human growth/development and human sexuality are discussed and studied. Topics such as dating relationships and communication skills, abstinence, contraception methods, abortion, consent, gender education, and prevention of sexually transmitted infections are all explored as part of the

comprehensive high school health education curriculum.

Under Massachusetts State Law and School Committee Policy, parents/guardians may exempt their student from any portion of the curriculum that involves human growth/development and human sexuality. To receive an exemption, please forward a written request to the Franklin High School Principal prior to October 1 of the school year. Students exempted from this portion of the curriculum will not be penalized and will be provided with an alternative assignment.

If you would like to review curriculum materials or learn more about the curriculum, please contact the Director of Health and Physical Education, Ms. Kristin Letendre Smith. Ms. Smith can be reached at 508-613-1660.

CREDITS

Credit Hours per Course & Advancement

Credits will be awarded for courses upon successful completion as indicated in the course listings contained in the Program of Studies. Grade level placement is based on the number of previously earned credits. To be promoted at the end of the school year, a student must have earned the following number of credits for the grade and school year:

FHS Class of 2027 and beyond

Grade	Credits Taken *	Cumulative Credits	Required for Promotion
9	32	32	22
10	32	64	51.5
11	30-35	94-99	81.5

12	30-35	124-134	111.5
----	-------	---------	-------

* Due to health and physical education requirements, not all students are required to carry the maximum credit load (35) per year. As such, a range of credit requirements is published as a general reference.

GRADE POINT AVERAGE (GPA) CALCULATION

Grade Point Average (GPA) is tabulated according to a 4-point weighting system. This system is consistent with the requirements of colleges and universities for the method of reporting student GPA for the application process and is in compliance with the Massachusetts Board of Higher Education guidelines for computing weighted grade point averages. Courses at Franklin High School are grouped in three levels and will be given differing weights in the computation of grade point average according to the table below. **GPA = course credits x weighted grade = weighted score in each course**

GPA TABLE

Grade	AP	H	CP
A+	5.33	4.83	4.33
A	5.00	4.50	4.00
A-	4.67	4.17	3.67
B+	4.33	3.83	3.33
B	4.00	3.50	3.00
B-	3.67	3.17	2.67
C+	3.33	2.83	2.33

C	3.00	2.50	2.00
C-	2.67	2.17	1.67
D+	2.33	1.83	1.33
D	2.00	1.50	1.00
D-	1.67	1.17	0.67
F	0.00	0.00	0.00

The weighted Grade Point Average (GPA) is determined by weighting marks received in each subject according to the degree of difficulty of the subject. Academic subjects are designated as Advanced Placement (AP), Honors (H), and College Preparatory (CP). Rank in class is based on courses in Grades 9-12 only. Rank in class is calculated using the following formula:

Sum of weighted scores for all courses $\div$ Sum of credits earned during the student's career

Note

1. All scheduled classes with a curriculum will be applied to GPA.
2. Two semester courses will be combined to equal the credit equivalent of one year.
3. Independent study will not be applied to class rank.
4. Courses taken on a P/F basis will not be applied to GPA or class rank.

Reporting of Student Grade Distribution

1. A weighted GPA will be computed and will include all courses with a prepared curriculum.
2. A student distribution by deciles will be developed, based on the first six semesters of grades. It will be distributed with the student's transcript and school profile.
3. Valedictorian and Salutatorian determination will be based on weighted GPA after the third quarter of senior year.

Transfer Students / Rank in Class

1. Only courses designated as honors or the equivalent thereof at the student's former school will be classified as honors courses for class rank at Franklin High School. The high school administration will interpret the appropriateness of a course designation.
2. To receive credit toward class decile ranking at Franklin High School equaling that of the student's former school, the course at the student's former school must have equivalent hours and designation.
4. Students must complete two full years at Franklin High School to be considered for Valedictorian, Salutatorian, and/or Top 5% of the class.

RELATED TOPICS

Other related topics of interest to students and families can be found in the [Franklin High School Student Handbook](#).

COURSE OF STUDY

CORE SUGGESTED SEQUENCE

Grade 9			Grade 10		
	<u>Course</u>	<u>Level</u>		<u>Course</u>	<u>Level</u>
1	English 9	H or CP	1	English 10	H or CP
2	World Language	H or CP	2	World Language	H or CP
3	Mathematics	H or CP	3	Mathematics	H or CP

4	Biology	H or CP	4	Science	H or CP
5	World History	H or CP	5	U.S. History I	H or CP
6	Elective*	H or CP	6	Elective*	H or CP
7	Wellness	CP	7	Wellness	CP

Grade 11			Grade 12		
	<u>Course</u>	<u>Level</u>		<u>Course</u>	<u>Level</u>
1	English 11	AP, H or CP	1	English 12/Elective	AP, H or CP

3	Mathematics	AP, H or CP	3	Mathematics	AP, H or CP
4	Science	AP, H or CP	4	Science	AP, H or CP
5	U.S. History II	AP, H or CP	5	Social Studies	AP, H or CP
6	Elective*	AP, H or CP	6	Elective*	AP, H or CP

7	Physical Education Elective or School-Sanctioned Sports Team**	CP	7	Physical Education Elective or School-Sanctioned Sports Team**	CP
---	---	----	---	---	----

*An elective can be a course offered in any department. It is usually selected primarily out of student interest.

**Physical Education - students have the choice of Pathway 1: taking a school physical education elective for one semester in either their junior or senior year, or Pathway 2: participating on one of the school's athletic teams (SUBJECT TO ELIGIBILITY POLICIES AND COMPLETION OF THE SEASON) during either their junior or senior year.

NOTE: Students in the class of 2028 and beyond must take the Personal Finance class in any semester of any year to meet this graduation requirement.

NOTE: Students in the class of 2027 and beyond must take 5 credits of Visual or Performing Arts in any semester of any year to meet this graduation requirement.

GRADES 9-12 SELECTION CHECKLIST

Scheduling the proper courses for the next year is one of the most important activities in which you will engage this school year. It is very important that students do a careful and thorough job. This Program of Studies is a tool for students and their families to use in the scheduling process. This resource describes the courses as they will be offered. It describes the level of difficulty and the number of periods per week that a course is offered. Students should read the Program of Studies carefully before completing the course selection process with their guidance counselor. They are advised to make careful choices. It is very difficult to change a course once the selection process has been completed. Students will meet with their guidance counselor in February-March to review their recommendations and selected courses.

QUESTIONS TO CONSIDER WHEN CHOOSING YOUR SCHEDULE

Rising Freshmen (2030)

1. Have you selected English, Math, Biology, World History, World Language, and Wellness?

2. Are you taking 6 courses each semester (excluding Wellness for 9th)?
3. Do your choices agree with your teachers' recommendations?

Rising Sophomores (2029)

1. Have you passed all your previous requirements?
2. Have you selected English, Math, Science, US History I, World Language, and Wellness?
3. Will you be taking 6 courses each semester?
4. Will you have at least 51.5 credits before entering your junior year?
5. Do your choices agree with your teachers' and guidance counselor's recommendations?
6. Does your program meet Massachusetts Higher Education Admission Standards?
7. Have you considered your art design and media requirement?

Rising Juniors (2028)

1. Have you passed all your previous requirements?
2. Have you selected English, U.S. History II, Math, and Science? Will you be participating in an FHS athletic team or do you need to register for a PE class during the school day? See page 13 for more information.
3. Will you have at least 81.5 credits before the beginning of your senior year?
4. Are you taking 7 courses (could include directed study) each semester?
5. Do your choices agree with your teachers' and guidance counselor's recommendations?
6. Remember, you must have 20 credits in English; 15 credits in social studies, (including U.S. History I); 15 credits in science (biology); 20 credits in mathematics; 10 credits in a single world language; 2.0 credits in Wellness; 5 credits in Art, Design and Media, and a sufficient number of credits to meet your P.E. requirement to graduate.
7. Have you met the PE requirement for graduation? Do you need to take a PE class during the school day or are you a member of an athletic team?
8. Does your program meet Massachusetts Higher Education Admission Standards?
9. Have you considered the World Language requirements of the post-secondary schools to which you plan to apply?

10. Have you considered your personal finance requirement?

Rising Seniors (2027)

1. Have you passed all your previous requirements?
2. Have you selected English for 1st and 2nd semester?
3. Will you have 111.5 credits (including a sufficient number of P.E. credits) upon completion of your senior year?
4. Are you taking 7 (could include directed study) courses each semester?
5. Do your choices agree with your teachers' and guidance counselor's recommendations?
6. Remember, you must have 20 credits in English; 15 credits in social studies, (including U.S. History I and II); 15 credits in science (biology); 20 credits in mathematics; 10 credits in a single world language; 2.0 credits in Wellness; 5 credits in Art, Design and Media, and a sufficient number of credits to meet your P.E. requirement to graduate.
7. Does your program meet Massachusetts Higher Education Admission Standards?
8. Have you met your PE requirement to graduate? Do you need to take a PE class during the school day or are you a member of an athletic team?
9. Have you considered the World Language requirements of the post-secondary schools to which you plan to apply?
